Hedy's Folly: The Life and Breakthrough Inventions of Hedy Lamarr, the Most Beautiful Woman in the World (Doubleday) RICHARD RHODES

Co-sponsored by the Museum of Performance & Design

What do Hedy Lamarr, avant-garde composer George Antheil, and your cell phone have in common? Pulitzer-prize winning author Richard Rhodes explains in this biography of a brainy sex symbol. Lamarr was an ambitious Jewish Austrian actress unhappily married to a Nazi arms dealer. She fled to Hollywood at the start of WWII, bringing star-making good looks, a head full of weapons information, and a gift for technical innovation. An introduction to composer George Antheil at a dinner party culminated in a US patent for a jam-proof guidance system for torpedoes, the technology that led to modern cell phones and GPS. *Hedy's Folly* is a riveting book about unlikely amateur inventors collaborating to change the world. **Members of MI & MPD Free; Public \$12**

Beyond Words: 200 Years of Illustrated Diaries (Heyday Books) SUSAN SNYDER

This Oprah Book Pick is a collection of excerpts from fifty illustrated diaries spanning two hundred years of adventure and contemplation. Gleaned from Snyder's explorations of the Bancroft Library as head of public services, they range from the records of eighteenth-century Spanish explorer Pedro Font to those of David Brower first encountering the wilderness to the Beat poet revelations. These unfolding stories reveal as much about the time in which they were written as they do the diarists' particular inner worlds. Whether filled with chicken-scratch sketches or gilded illuminations, these diaries have become objets d'art that expand our understanding of the uniquely compelling experiences of their creators. **Members Free; Public \$12**

American Avatar: The United States in the Global Imagination (Potomac Books)

BARRY A. SANDERS

According to Sanders, an international business lawyer and a member of the Council on Foreign Relations, the attitudes a person expresses about the United States consist of two components: the person's memory bank of images and a bias that influences which images are recalled to express an opinion. Sanders analyzes anti-U.S. and pro-U.S. biases, explaining which criticisms should be heeded when communicating national objectives to friends and foes. He also offers a strategy for public diplomacy to help the United States navigate a world in which it must work collaboratively with other nations. He concludes that more than ever, national security will be impacted by foreign views.

Honor in the Dust: Theodore Roosevelt, War in the Philippines, and the Rise and Fall of America's Imperial Dream (Penguin) GREGG JONES

Co-sponsored by Asia Society

This absorbing and relevant narrative brings to life a pivotal moment in U.S. history, when America's drive for an overseas empire clashed with the brutal realities of a foreign occupation. On the eve of a new century, an up-and-coming Theodore Roosevelt set out to transform the U.S. into a major world power. In response to the outrage over Spain's war against Cuban freedom fighters, Vice President Roosevelt enlarged the naval fleet, called for volunteers, and lobbied President William McKinley to throw out the last European army in Southeast Asia. Journalist Gregg Jones captures an era of American optimism as the nation expanded its influence abroad. **Members of MI & AS Free; Public \$12**

Forgotten Classics

Journey to the End of the Night

LOUIS-FERDINAND CELINE

This was Celine's first novel, published in 1932. Inspired by his work as a doctor with the poor near Paris, it was rejected at first by publishers who deemed it too controversial, but it immediately became an international bestseller. Known for his squalid settings, unrestricted language, acidic satire, and misanthropic narrators, he published his novels under a pseudonym in order to continue his medical practice without fanfare.

Monday, February 13, Noon; no registration required
Brown Bag Mystery Readers' Book Group

The Man Who Liked Slow Tomatoes

K.C. CONSTANTINE

Meet Mario Balzic, Police Chief of a small Pennsylvania coal mining town. This popular series by a pseudonymous author is an excellent representation of local color and story lines. Who would have thought selling tomatoes out of season could lead to murder?

Tuesday, February 21, Noon; no registration required
Fiction You Wish You Had Read

The Wide Sargasso Sea

JEAN RHYS

Rhys' highly personal fictional style pulls her own heritage into this prequel to Jane Eyre. The imagined life of the first Mrs. Rochester, the madwoman in the attic, is told in alternate voices of Mr. and Mrs. Rochester. Listed as one of Time Magazine's all-time 100 novels, it was the inspiration for a recent Stevie Nicks song as well as movie, opera, and television productions.

The Proust Society of America: San Francisco Chapter

Chess

INTERNATIONAL MASTER JOHN DONALDSON,
 DIRECTOR OF THE CHESS ROOM

Chess News

Fremont teenager Hayk Manvelyan made it two for two by winning the Fall Tuesday Night Marathon this past December after taking the Dan Litowsky TNM in October. Hayk, who along with his father Hovik, are regulars in Mechanics' Chess Club tournaments, had a breakthrough this past fall not only achieving his master's title (2200 rating) but going all the way to 2280. This makes the seventeen-year-old Hayk one of the top fifty juniors in the country under twenty-one.

Thanks in part to the efforts of Peter Sherwood, Mechanics' Tuesday Night Marathon players can review their games and those of future opponents by going to the MI Chess Club website at www.chessclub.org and clicking on Games Archives. There they will find games played in the Tuesday Night Marathon going back to 1998 in a variety of formats with an online game player for 2010 and 2011.

Crossroads Irish American Festival

Mark your calendars! The 9th Annual *Crossroads Irish-American Festival* will feature the 'best and brightest' of Irish-America in San Francisco during the month of March. This year Crossroads will host thirteen events in multiple venues featuring authors, musicians, historians, dancers, poets, and more, including one with MI member Renee Gibbons. Crossroads will also explore the history of the Irish in the west with historian, David Emmons, author of *Beyond The American Pale: The Irish In The West, 1845-1910*. Please go to www.irishamericancrossroads.org for a full schedule, including events for children.
