Introducing the Sydney Mechanics’ School of Arts

PAMELA TROY, EVENTS ASSISTANT

In 1831, a ship arrived in the Australian colony of New South Wales bearing a freight of about 50 Scottish “mechanics” — carpenters, bricklayers, blacksmiths, and other skilled tradesmen. These men had come to Sydney with their families and a group of teachers to build and staff a Presbyterian academy they planned to call “The Australian College.” A little over a year later one of the teachers, a London-based minister named Henry Carmichael, became the first vice-President of the newly founded Sydney Mechanics’ School of Arts. The colony’s governor, Sir Richard Bourke, served as patron and its Surveyor-General, Sir Thomas Mitchell, its first president.

There were some rocky years and some shifts in priorities, but today the Sydney Mechanics’ School of Arts thrives in its 10-story building at 280 Pitt Street and is still faithful to its original mission as an educational and cultural resource.

**EVENTS**

**Thursday, June 14, 6:00 pm  FLAG DAY!**

*America the Philosophical* (Knopf) CARLIN ROMANO

Pulitzer Prize finalist and award-winning book critic Carlin Romano challenges the widely held belief that our nation is an anti-intellectual society. He argues that we are still the country of new ideas, public debate and engagement, especially with a plethora of talk shows, social media, blogs, and the new emerging “cyberphilosophy.” He introduces us to the big thinkers who have shaped American life, from historical figures like William James and Ralph Waldo Emerson, to modern cultural critics such as Kenneth Burke and Edward Said, to intellectual mavericks including Cornel West, Susan Sontag, Anne Waters, and Richard Mohr, who have broadened the boundaries of American thought.

**Members Free; Public $12**

**Saturday, June 16, 7:00 pm performance (café opens at 6:30 pm)**

**11th Annual Bloomsday Celebration**

*The Voices of James Joyce: Readings from Ulysses and Beyond*

Sajothe the streets of Dublin on June 16, 1904 with protagonist Leopold Bloom, as described by James Joyce in his quintessential novel *Ulysses*. The evening features dramatic readings that give voice to the book’s well known characters, and selected readings from Joyce’s other novels such as *Portrait of the Artist as a Young Man* and *Dubliners*. Traditional Irish music, song and dance enhance this convivial celebration. Performances by actors Bruce Bierman, Renee Gibbons, John Ilyin, Esther Mulligan and Laura Sheppard are accompanied by musicians Rebecca Kleinmann (Irish flute) and Darcy Noonan (fiddle). Stage direction and set design by Kathleen Blake. Our special Bloom’s Menu is available throughout the evening. Bloomsday will surely delight your senses and literary sensibilities!

**Members $15; Public $20 Reservations Required**

**Friday, June 22, 12:30 pm  (café opens at noon)**

*Tubes: A Journey to the Center of the Internet* (Ecco/HarperCollins) ANDREW BLUM

Everyone uses the internet but few people understand how it actually works. Andrew Blum’s engaging narrative takes us on a journey around the world (and the under-world) to discover how it all functions. From the room in L.A. where the internet began to the busiest streets in Manhattan as new fiber optic cable is laid down; from the coast of Portugal as a new transatlantic undersea cable that connects West Africa and Europe is laid down to the Great Pyramids of our time, the monumental data centers that Google and Facebook have built in the wilds of Oregon — Blum visits them all to chronicle the story of the Internet’s development and how these infrastructures work.

Sydney’s MI
(continued from page 1)

Mechanics’ Institutes were a 19th century phenomenon that began in Scotland and spread to England, Australia, and much of the English-speaking world. Surviving institutes are rather like seeds from a single plant, sown in different countries and, over the years, growing in slightly different directions. In many ways, the SMSA is similar to San Francisco’s Mechanics’ Institute. The Sydney Mechanics’ School of Arts occupies three floors and rents out offices in the rest of a downtown building. It boasts a venerable lending library (the oldest in Australia,) located on its second floor. It hosts book groups, author events, and workshops, and offers reasonably priced short term rental venues.

And last year, it acquired an exciting new addition, The Tom Keneally Centre. Famed Australian writer Tom Keneally, author of *Schindler’s Ark* (which was later made into the film Schindler’s List) has donated his own, 2,500 book library to the Sydney Mechanics School of Arts, along with other memorabilia. Now the SMSA has, along with its four meeting rooms and theater, an attractive and intimate space for book launches, writing classes, and other literary events.

Their building is more modern, and there are some slight differences in emphasis, but the Sydney Mechanics’ School of Arts and the San Francisco Mechanics’ Institute have the important things in common. Each is a significant historical treasure in a great city.

Brown Bag Mystery Readers’ Book Group
Midnight Fugue
REGINALD HILL
The recent death of Reginald Hill inspires us to read the last adventure of Daziel and Pascoe, in book number 25 of the series, published in 2009. The “Fat Man” Dalziel and his mild-mannered foil, Pascoe, are solving their last crime. If you are a serious fan of the duo you may want to re-read the first book of the series, A Clubbable Woman, which this group discussed in August 2009.

Forgotten Classics
Sentimental Education
GUSTAVE FLAUBERT
You’ve read Madame Bovary, but have you read this book by Flaubert? Inspired by his school years in Paris, where he had a first-hand look at the Revolution, Flaubert eventually published this book in 1870. He described it: “I want to write the moral history of the men of my generation— or, more accurately, the history of their feelings. It’s a book about love, about passion; but passion such as can exist nowadays—that is to say, inactive.”

Information & registration: 415.393.0113 or Sharon Miller smiller@milibrary.org
All readings are available at the 2nd floor Circulation desk.
All book discussions are held in the 4th floor Board Room and are free except where indicated.
Neil Falconer Retires From the Board

Neil Falconer has retired from the Mechanics’ Institute’s Board of Trustees. He is the longest running trustee in MI’s history, having served from 1973 to 2012, a total of 39 years. Watch for a feature article about Neil Falconer in the July newsletter.

(left) This photo was taken to commemorate the 1951 California Open Chess Tournament held September 1-3 in Santa Cruz, California. Neil Falconer won this event which made him the California champion for the year. He is the one standing in the middle row on the left side, with his hands on his hips, wearing an open light colored jacket. The woman right below him, seated to his left is Jacqueline Piatigorsky who celebrated her 100th birthday last fall. She played in the US Womens’ Chess Championship in the 1950s and 60s and was a famous patron of the game.

(right) This 1991 photo of Neil and Susan Polgar was taken during the Pan Pacific Grandmaster Tournament organized by the Mechanic’s Institute. Susan, or Zsuzsa as she was called then, is a former Women’s World Champion. Neil was the leader of the M.I. organizing committee which made the 1987, 1991 and 1995 Pan Pacific events possible.

(right) Dating from around the year 2000, this photo is of Neil and Alex Stezepfandt, a young and talented chess champion. The photo was taken as a promotional shot for an Institute membership drive. Alex was about 10 years old at the time.
FIDE Master Andy Lee of Berkeley and Expert Demetrius Goins of Oakland shared top honors in the 72-player Spring Tuesday Night Marathon which ended May 1st. International Master Elliott Winslow, FIDE Master Frank Thornally, and Experts Todd Rumph and Jorge Lopez were just a half point behind their winning scores of 6.5 from 8. The Summer Marathon starts on May 22.

The 6th Annual Ray Schutt Memorial Blitz, held May 6th, was dominated by youth. Leading the charge of the young was 16-year-old Daniel Naroditsky who scored 9 ½ from 10 to take home the $300 first prize ahead of four other International Masters. Tying for second with eight points were 14-year-old Yian Liou, Dharim Bacus and 11(!)-year-old Cameron Wheeler. The 43 participants in this 5-minute chess tournament were treated to a feast by the Schutt family which also sponsored the generous prize fund.

The Moment of Truth: Confronting America’s National Debt

Are you disappointed with the lack of civic discourse? Join fellow members in a Citizens’ Jury to wrestle with current issues of national interest. This moderated seminar, first in a projected series, will study the Simpson-Bowles and Domenici-Rivlin reports, debate and deliberate alternative solutions, and seek to arrive at statements of agreement for governmental action to reduce the national debt.

MI members Avery Chope, retired from a career in banking and finance that spanned the globe, and Steve Weiner, retired Associate Dean of the Graduate School of Public Policy, UC Berkeley, are preparing a four-session seminar to offer members of differing opinions an opportunity to study the issue and discuss the merits of proposed solutions. Participants who wish to do so will be encouraged to write a personal opinion statement for possible publication. The Library will make copies of the reports for all participants: The National Commission on Fiscal Responsibility and Reform: The Moment of Truth (Simpson-Bowles) and Restoring America’s Future: Reviving the Economy, Cutting Spending and Debt, and Creating a Simple, Pro-Growth Tax System (Domenici-Rivlin).

Mondays, July 9, 16, 23, 30, 4:00 - 6:00 pm.
Fourth Floor Board Room, Mechanics’ Institute.
