Located in a “euphemistic part of town,” in a surreal but still recognizable San Francisco, this long-lived indie bookstore has three stories of books, but no floors, and regular customers who never buy anything. High and low tech merge, as Clay unravels the mystery of the store and the visitations of its strange patrons as both ancient and new ways of accessing knowledge are revealed. **Members Free; Public $12**

Author Andrew Lam in conversation with Aimee Phan; Cosponsored by Asia Society

The thirteen stories in *Birds of Paradise Lost* shimmer with humor and pathos as they chronicle the anguish, joy and bravery of America’s newest Americans, those who fled Vietnam and remade themselves in the San Francisco Bay Area. The past memories of war and its aftermath—murder, arrest, re-education camps, escape, shipwreck, and atrocity—is ever present in these wise and compassionate stories. Andrew Lam intricately renders the false starts and revelations in the struggle for integration, and in so doing, the human heart. **Members of Mechanics’ Institute and Asia Society Free; Public $12**

Brown Bag Mystery Readers Book Group

Blind Justice
BRUCE ALEXANDER
The first installment of this mystery series features Sir John Fielding, a blind yet brilliant magistrate in London’s Bow Street Court in the 18th century. Fielding is assisted in his investigation of the death of Lord Richard Goodhope by his thirteen-year-old errand boy, Jeremy, whom he rescued from a life of penury on the streets. Although Goodhope was discovered behind locked doors with a shot to the head and the gun at his feet, there is reason to believe that he was murdered. Their enquiries reveal that the victim was a man with many enemies due to the dissolute life that he led.

Alexander entertains the readers with his clever plotting, colorful characters, and energetic storytelling. The author has a winning combination of likable characters and well-conceived stories to begin his very popular Sir John Fielding mystery series.

True Adventure Book Group

The Last Season
ERIC BLEHM
In 1996, veteran National Park Service Ranger Randy Morgenson set off on a routine three-day patrol and was never heard from again. The Last Season traces Blehm’s investigation into the mystery surrounding Morgenson’s disappearance and the circumstances that led up to his gradual disillusionment with the National Park Service and his twenty-eight-year career as a ranger.

While the story about Morgenson is compelling, the descriptions of the back country Sierra Nevada, the search and rescue missions conducted out in the wilderness, and the life of a back country ranger are also riveting parts of the book.

Assembling California
JOHN MCPHEE
This book explores the geological history of the state and region, explaining how it came to be, with features such as gold, earthquakes, tectonic plates, etc.” For an extremely large percentage of the history of the world, there was no California” (p.5)—you can’t get much older than that. McPhee may be off-target for some of us, but if we could all imagine a world without (or before) California, then we can see how all the various California dreams fill in later. Members only. Registration required for four-meeting session (March–June); to register online, go to www.milibrary.org/discussion or call 415.393.0102.

The Beet Queen
LOUISE ERDRICH

An orphaned brother and sister, Mary and Karl, arrive in a small Midwestern town in 1932 to live with their aunt and uncle. On their way from the train station to the butcher shop owned by their aunt and uncle, an event occurs which separates Mary and Karl—sending Karl back to the train and a life of wandering, and spurring Mary into a life in the small town of Argus, North Dakota.

This novel addresses themes of parenting, abandonment, jealousy, love and aggression. While the story may not always be pleasant or easy to read, the readers’ effort will be repaid with complex but believable characters who Erdrich portrays beautifully.

The Mechanics’ Institute had the honor of hosting a session of the U.S. Chess School this past January. The five day camp, which ran from 9 am to 6 pm, attracted a dozen of the best young players (ages 10-14) from all over the country. This group included several Bay Area stars, including Cameron Wheeler, who recently took second place in the World under twelve Championship in Slovenia; and fellow Mechanics’ U.S. Chess League team member Kesav Viswanadha.

The players had the benefit of learning from the camp’s organizer and chief instructor Greg Shahade, as well as from Grandmasters Jesse Kraai and Sam Shankland. The latter was coming full circle, as not so many years ago he was the one receiving instruction at the Mechanics’, and not the other way around. Now Sam is rated in the top ten players in the United States and recently made his debut on the U.S. National team in Brazil.
