Selected Letters of Langston Hughes
Arnold Rampersad in conversation with Elaine Elinson

Thursday, July 9 | 6pm
4TH FLOOR MEETING ROOM

The life and times of this iconic American writer is explored by Professor Arnold Rampersad, Senior Associate Dean for the Humanities at Stanford University, and activist Elaine Elinson, author of Wherever There is a Fight: How Runaway Slaves, Suffragists, Immigrants, Strikers, and Poets Shaped Civil Liberties in California.

This first comprehensive selection of correspondents by Langston Hughes expresses his many struggles as well as his memorable achievements. Arranged by decade and linked by expert commentary, the volume guides us through Hughes’ journey in all its aspects: personal, political, practical, and—above all—literary. Correspondences include Carl Van Vechten, Blanche Knopf, Zora Neale Hurston, Arna Bontemps, Vachel Lindsay, Ezra Pound, Richard Wright, Kurt Weill, Carl Sandburg, James Baldwin, Martin Luther King, Jr., and many others.

Members Free | Public $15

Elaine Elinson is an author and activist, whose articles have been published in the Los Angeles Daily Journal and other publications. She served as the communications director of the ACLU of Northern California and editor of the ACLU News for more than two decades.

**The Rainman’s Third Cure: An Irregular Education**  Author presentation: Peter Coyote

Inspired by Bob Dylan’s lyrics, Peter Coyote’s new biography comes to grips with the competing forces of his life. This biography is the tale of a young man’s journey from the privileged halls of power, to Greenwich Village jazz bars, to jail, to the White House, government service, and international success on stage and screen. Coyote provides intimate portraits of mentors that shaped him—a violent, intimidating father; a bebop bass player; a Mafia consiglieri; and Pulitzer Prize-winning poet Gary Snyder, who introduces him to Zen practice. Through Zen, Coyote discovers another “door” that offers answers to his personal, spiritual and material conflicts and a path to a life well lived.

**Mr. Churchill’s Secretary: A Maggie Hope Mystery**  
**BY SUSAN ELIA MACNEAL**

London, 1940. Winston Churchill has just been sworn in, war rages across the Channel, and the threat of a Blitz looms. Maggie Hope graduated at the top of her college class and possesses all the skills of the finest minds in British intelligence, but her gender qualifies her only to be the newest typist at No. 10 Downing Street. Her indefatigable spirit and remarkable gifts for code-breaking, though, rival those of even the highest men in government, and Maggie finds that working for the prime minister affords her a level of clearance (and opportunities) she could never have imagined. Ensnared in a web of spies, murder, and intrigue, Maggie must work fast to balance her duty to King and Country with her chances for survival. And when she unravels a mystery that points toward her own family’s hidden secrets, she’ll discover that her quick wits are all that stand between an assassin’s murderous plan and Churchill himself. **Members Only. Walk-ins Welcome.**

**Brown Bag Mystery Readers**  
**Monday, July 13 | Noon**  
**The Murders in the Rue Morgue** **BY EDGAR ALLEN POE**

The Murders in the Rue Morgue is thought to be the first modern detective story, published by Edgar Allan Poe in 1841. In this classic tale the detective demonstrates the ineptitude of the police, the value of reason, and how it’s the seemingly least important details that often matter most. A landmark in the history of detective fiction. **(annotation courtesy of ipage.ingramcontent.com) Members Only. Walk-ins Welcome.**

**Good Reads Book Group – New Group!**  
**Tuesday, July 21 | Noon**  
**On Such A Full Sea** **BY CHANG-RAE LEE**

B-Mor is a rigorously ordered labor settlement founded in what used to be Baltimore by refugees from impossibly polluted New China. They grow stringently regulated food for the elite, who live in gated charter villages, surrounded by open counties, in which civilization has collapsed under the assaults of a pandemic and an ever-harder climate. In a third-person plural narrative voice that perfectly embodies the brutal and wistful communities he portrays, Lee tells the mythic story of young, small, yet mighty Fan, a breath-held diver preternaturally at home among the farmed fish she tends to. When her boyfriend inexplicably disappears, Fan escapes from B-Mor to search for him, embarking on a daring, often surreal quest in a violent, blighted world. **(annotation courtesy of ipage.ingramcontent.com) Members Only. Walk-ins Welcome.**

Michael Savage Retires

After thirty – one years, Building Manager Michael Savage is calling it quits. Michael started working at the Institute when he was 25 years old as a Library Assistant. He very quickly rose through the ranks to become the Building Manager and Human Resources Specialist for the Institute. In addition to cycling around the Sacramento area he plans to spend time with family, paint a few pictures, and enjoy good food and wine. We will certainly miss his ironic sense of humor and genial disposition!

Library Manager Bobbie Monzon meanwhile has been training under Michael so she can assume his august position. Bobbie has worked for the Mechanics’ Institute for five years and she looks forward to carrying the keys, working with tenants, and shepherding the Institute through its exterior facelift.

Building To Receive Facelift

July 15 marks the 115th anniversary of 57 Post’s grand opening in 1910. Designed by renowned architect Albert Pissis, our building is an historic landmark and a striking example of the Beaux Arts style. As the San Francisco Chronicle described it, the directors and managers were “gratified over the profuse congratulations showered upon them and the Institute by the friends and patrons who formed a continuous stream in and out of the Library all day, expressing delight that the Library had come back into its own.” The visitors’ delight must have been entirely founded on the glories of the space as the books were not yet in their permanent places – the custom steel book stacks and shelves had not yet arrived from the East. The return of the Mechanics’ Institute to the downtown marked the relocation of the last of the important and popular institutions of San Francisco since the 1906 disaster.

While the building has aged gracefully, the exterior is now in need of a new roof and painting. The project will begin June 22 and will include scaffolding and mesh sheeting on the Post Street side of the building. All Institute activities and programs will continue uninterrupted and building access will remain the same. We expect the work to last four months and will keep the membership apprised of its progress. This work will insure that our landmark building will be around well into the future for members to use and enjoy. Thank you for your understanding and continued support of the Mechanics’ Institute.

If you are interested in learning more or finding out how you can help support the building effort, please contact Ralph Lewin at rlewin@milibrary.org.

Chess

INTERNATIONAL MASTER JOHN DONALDSON, DIRECTOR OF THE CHESS ROOM

Nelson Sowell was the convincing winner of the 15th Charles Powell Memorial held May 2nd at the Mechanic’s Institute Chess Club. The 64 year-old resident of Oakland started the event seeded fifth but won all of his games to take first place.

Mechanics’ member Grandmaster Daniel Naroditsky of Foster City tied for second place in the 826 player Chicago Open held over Memorial Day weekend.

And, Tony Lama, our MI weekend guard, turned 80 in early June. He has worked at the Mechanics’ since 1990 and is a very good player (Expert rating) despite only learning the game in his thirties.

Kids' Chess Camp at MI

Our annual school year end chess camp was held at the MI chess room June 8-12. This brought kids from around the city into our building to see the world famous club. These were some of the more motivated players from our scholastic program, and the camp allows them to learn some advanced topics. Fifteen to twenty kids would come each day, immersing themselves in the complexities of the game. Yet they had great fun – the chess room was often filled with laughter. One young girl (Elinor) was shy and reserved to begin with, but made new chess friends throughout the week and felt at home by the end.

Teachers Elliott Winslow and Emilia Krubnik taught chess tactics, including forks, pins and skewers. Difficult puzzles of checkmate in 3 moves were solved, and each day the kids would try the challenge game against the instructor (who would play all simultaneously). By the end of the camp the kids were managing to score points!

Thursday, June 11th also brought our annual visit from the Salvation Army. Thirty-two children came from the Tenderloin Salvation Army building for an afternoon of chess. Some had learned chess in previous visits and were versed in the fundamentals. Half of the kids were complete beginners, but enthusiastically learned the rules and started play. We again donated sets and vinyl chess boards so the kids can play at their Tenderloin location.

The Mechanics’ Institute Chess Club will hold its advanced chess camp July 20 to 24 from 10 am to 4 pm daily. The lead instructors are Grandmasters Nick de Firmian and John Fedorowicz plus International Master Elliott Winslow. Go to chessclub.org/children/camp.php, or write chessroom@milibrary.org or call 415.393.0110 for more information.
The Panama Canal Exhibit  [continued from page 1]

a devastating number of fatalities of workers due to malaria and yellow fever. In 1904, the United States purchased the rights to the land from the Panamanian government, the equipment and excavations from the French, and continued construction of the Panama Canal. The Canal was completed and opened to international traffic on August 15, 1914.

The 1915 Panama-Pacific International Exposition in San Francisco was a celebration of the opening of the Panama Canal and the expanded trade that helped the Port of San Francisco to prosper.
