Antiracism Reading Recommendations

As many in our community continue to fight for equity and protest police brutality rooted in institutional racism, the board and staff at Mechanics’ Institute has been examining how we can create more opportunities for dialogue about diversity, equality, and inclusion. We have been working to diversify our event offerings and welcome your recommendations on programs you would like to see – or participate in. For those looking for reading material, here are a few articles and books in our library’s collection that may act as a starting point for understanding systemic racism and taking action to foster social justice.

San Francisco Scholastic Online Championship Draws 289 Participants

The 2020 San Francisco Scholastic Championship was set to take place in Golden Gate Park at the end of March; after the in-person event was cancelled due to San Francisco’s shelter-in-place order, Mechanics’ Institute successfully transitioned its popular annual free scholastic event to an online format.

At 11 a.m. on May 23, 289 students — the largest turnout in the event’s history — joined Mechanics’ Institute via ChessKid and Chess.com to participate in the 5-round tournament. We had three non-rated sections divided by grade level and two US Chess Federation (USCF) online-rated championship sections.

The champion of the tournament was Shawnak Shivakumar, an 11-year-old runner up in the 4th grade section of the 2017 National High School Championship; Shawnak’s perfect score of 5/5 won the title on tiebreaks over Brian Fong and Rudransh Pathak, who also earned perfect 5/5 scores. Congratulations to all the participants and to the winners of all the sections! Full results can be found in our tournament archives.

Star-Studded Field For 2020 Mechanics’ Institute Rapid and Blitz Championship

The 2020 Mechanics’ Chess Club Blitz and Rapid Championships was hosted the weekend of May 30-31. In total, nine Grandmasters participated over the weekend, along with our club regulars, and it was lots of fun seeing them battle it out with some of the world’s best players. The blitz championship was won by GM Eltaj Safarli, who won the 12-round G/3 +2 tournament with 10.5/12. In 2nd place was GM Aleksandr Lenderman with 9.5/12. Tied for 3rd were GM Andrew Tang and IM Christopher Yoo with 9/12. In the rapid championship, GM Aleksandr Lenderman and GM Gadir Guseinov tied for 1st with a score of 5.5/6 in this G/15 +2 6-round event. IM Christopher Yoo and FM Balaji Daggupati tied for 3rd with 5/6. Full results can be found at our online championship tournament page.

Mechanics’ Institute Chess Club Moves Online While Sheltering in Place

The vibrant chess community of Mechanics’ Institute did not stop interacting with one another when the building closed in mid-March. Instead, we transitioned to Chess.com to form our own Mechanics’ Institute Chess Club online, where many Mechanics’ regulars have showed up to play. Anyone can join at chess.com, then follow our online chess club and check the daily tournament schedule at our website.

Our club is part of the Chess.com club’s league, which plays against chess organizations from all over the world. Free daily tournaments are offered, and beginning in June, USCF online-rated events have been organized twice a month. Mechanics’ Institute’s very own FM Paul Whitehead started an online Wednesday evening class for intermediate players rated USCF 1000-1800. Players are encouraged to sign up, and send in their game to experience Paul’s unique style and gain valuable insights and suggestions on improvements based on their games. GM Nick de Firmian will start his online series on Thursday evenings, where advanced players rated USCF 1400-2000 will join GM de Firmian to take them to their next chess level.

Whatever your skill level, become part of our chess community. Please reach out to us at chessroom@mlibrary.org if you have any questions on how to join. Find more information about regular virtual offerings at https://www.mlibrary.org/chess/online.

MI Members & Public Free

Hidden San Francisco
July 7, 7:00 p.m.
MI Members & Public Free

Only when you look beyond the picture-postcards of the Golden Gate Bridge and the quaint cable cars do you realize that San Francisco’s most interesting stories are not the Summer of Love, the Beats, or even the latest Gold Rush in Silicon Valley. Join us as Chris Carlsson presents his new book, Hidden San Francisco, in which he peels back the layers of San Francisco’s history to reveal a storied past: behind old walls and gleaming glass facades lurk former industries, secret music and poetry venues, forgotten terrorist bombings, and much more. Carlsson delves into the Bay Area’s long prehistory as well, examining the region’s geography and the lives of its inhabitants before the 1849 Gold Rush set in motion the clash between capital and labor that shaped the modern city.

A History of Crime Fiction
Saturdays July 18-August 8
10:00 a.m - 11:30 a.m.
MI Members $79; Public $99

Almost as long as crime has existed, people have been writing about it — but they only got around to making it all up a few hundred years ago. This four-week course led by Dr. Myles Dungan, examines the origins and the development of English-language crime fiction since the late eighteenth century. The focus will be on work such as that which was produced by Arthur Conan Doyle at the turn of the twentieth century, Agatha Christie and writers of the so-called “Golden Age”, and the American hard-boiled school — Chandler, Hammett and Highsmith — of the mid-twentieth century.

5:30 p.m.

In a small-town in 1860s Russia, high-minded retired academics, bored young aristocrats, and an enigmatic band of revolutionaries come together to make social change — but the result is total chaos. this course examines one of the lesser-read great Russian novels, Demons (sometimes translated as The Possessed or The Devils), which Fyodor Dostoevsky wrote after returning from political exile in Siberia. We’ll work through this thrilling revolutionary mystery, along the way uncovering Dostoevsky’s political philosophy, and possibly drawing some parallels to our current moment. Watch our website for the upcoming listing to sign up for this class.

Bastille Day 2020

Mes Amis—we will miss celebrating Bastille Day with you in person on July 14th this year! CinemaLit recommends watching Farewell, My Queen (Les adieux à la reine) on Kanopy.

Marking the return of acclaimed director Benoît Jacquot (A Single Girl), Farewell, My Queen brilliantly captures the passions, debauchery, occasional glimpses of nobility, and ultimately the chaos that engulfed the court of Marie Antoinette in the final days before the full-scale outbreak of the Revolution. This sumptuous and suspenseful drama stars Diane Kruger, Léa Seydoux, and Virginie Ledoyen.
Charitable Giving

These are bewildering times. Swept up in a relentless tempest, our lives adapt, adopt, surge, and sag. Yesterday’s new normal becomes today’s obsolescence. We can hardly fathom tomorrow, as uncertainty reigns.

This will pass. Through the years, the Mechanics’ Institute has successfully weathered many storms. This one will be no different. Since 1854, Mechanics’ has shined a beacon of San Francisco’s venerable intellectual and cultural heritage, emerging from wars, fires, and plagues. We’re strong, resilient, and carry on — in large part because of you, our treasured members and supporters.

Words cannot begin to adequately express our enormous appreciation and gratitude. From the bottom of our hearts, thank you for sharing and participating in our classic, unique, and irreplaceable local gem.

Similar to most nonprofits, Mechanics’ has been affected by the COVID-19 pandemic. Reopening plans, replete with health protocols, are in the works. We invite your support to help us continue our programs and legacy. We are now utilizing PayPal to make it simpler for you to support the Mechanics’ Institute by setting up a recurring gift on a monthly basis. Many thanks for your consideration in these turbulent times.

Take care, stay well, and thank you. We look forward to welcoming you back to Mechanics’ Institute!
